Results of El Dorado County Office of Education 2014-15 Annual

Budget Review

MEETING DATE:

September 11, 2014

FROM:

Dr. Robert Williams, Superintendent

Roslynne Manansala-Smith, Chief Fiscal Officer

EXPLANATION:

The results of El Dorado County Office of Education 2014-15 Annual Budget Review will be shared with the Board of Trustees.

BACKGROUND:

In compliance with the provisions of Education Code Section 42130 et seq., the El Dorado County Office of Education has completed its review of our District's 2014-15 annual budget which was approved by the Board of Trustees at the June 19, 2014 Board meeting. This review covers the 2013-14 estimated actual data, 2014-15 budget as well as projections for 2015-16 and 2016-17. The County Office is required to issue a letter to the Governing Board by August 15th that indicates agreement (or

disagreement) with the District's finding of positive, qualified or

negative.

August 15, 2014

Joe Scroggins, School Board President Black Oak Mine Unified School District 4100 Cool Country Court Cool, CA 95614

Dear Joe Scroggins:

In compliance with the provisions of Education Code Section 42127 et seq., our office has completed its review of the 2014-15 budget adopted by the board. Based on the data provided to our office, including the Criteria and Standards for your district, your budget for 2014-15 has been <u>approved</u> as adopted. Any technical comments relative to the adopted budget have been directed to your district's chief fiscal officer.

2014-15 Budget Review

Education Code provisions outline the major components of the budget review process and require the county superintendent to do the following:

- Examine the adopted budget to determine whether it complies with the standards and criteria adopted pursuant to Section 33127 and identify any technical corrections needed to bring the budget into compliance with those standards and criteria.
- > Determine whether the adopted budget will allow the district to meet its financial obligations during the fiscal year and is consistent with a financial plan that will enable the district to satisfy its multiyear financial commitments.
 - In addition to analysis of the budget, review and consider studies or reports that indicate the district is showing fiscal distress or find that more than three of the 15 most common predictors of a school district needing intervention are present.
 - Conditionally approve or disapprove a budget that does not provide adequate assurance that the district will meet its current and future obligations and resolve any problems identified in studies or reports.
- Determine whether the adopted budget includes the expenditures necessary to implement the local control and accountability plan (LCAP) or annual update to the LCAP.
- > On or before August 15, approve, conditionally approve, or disapprove the adopted budget for each school district.
 - For the 2014–15 fiscal year and each fiscal year thereafter, the budget shall not be approved before an LCAP or update to an LCAP for the budget year is approved.
 - o A separate letter on the LCAP will be sent.

The county office reviews the data submitted and performs additional testing of the data as we deem necessary. This review covers 2013-14 estimated actual data, 2014-15 budget as well as projections for 2015-16 and 2016-17.

Based upon our review, we did want to make special note of the following items:

Local Control Funding

With the LCFF formula, the district is funded at its historical base, adjusted for average daily attendance (ADA) changes, plus a portion of the difference between the historical level and the LCFF target. This means the district is funded at 15% below its LCFF target. This gap between the funded and target LCFF is about \$1.7 million.

Current Year Deficit Spending

The 2014-15 adopted budget shows the district's income/expenditure variance (adjusted for one-time income and expenditures) is approximately \$530,000 which means the districts is spending \$530,000 more than current year income.

Negotiations

The 2014-15 adopted budget reflects the status of salary negotiations as follows:

Certificated

No Settlement

Classified

No Settlement

Declining Enrollment

The district is funded in 2014-15 based on 2013-14 ADA, a loss of approximately \$501,000. The district is projecting a loss of over 56 ADA in 2014-15, which will result in over \$341,000 loss in local control funding in 2015-16.

Reserve Levels

The district has an economic uncertainty reserve of 3.05%. The required reserve level for the district is 3.00%.

Cash Flow

Reduced state funding levels, state adopted cash deferrals, and the district's deficit spending have impacted the district's cash flow. Cash flow projections show that the district will end the budget year with a negative cash balance in the general fund. The district anticipates it will borrow from other funds to cover the cash shortfall.

Multiyear Projections

The district's multiyear projection reflects assumptions that target LCFF levels will increase by 2.19% in 2015-16 and 2.14% in 2016-17, with district funding at 11% below its LCFF target in 15-16 and 10% below target in 16-17.

The multiyear projection indicates sufficient amounts to meet minimum reserve requirements in 2015-16 and a positive ending fund balance in 2016-17 with sufficient amounts to meet minimum reserve requirements in 2016-17 *only if the indicated additional reductions are made*. An additional \$640,000 is needed to meet the minimum reserve level in 2015-16 and \$856,000 is needed to meet the minimum reserve level in 2016-17. The magnitude of these amounts represents necessary spending reductions of 7% across two years given the current level of projected revenues.

Summary Statement

We recognize that this is a time of transition. It is always a delicate balance of financial responsibility and the responsibility to provide for the education of students. It is therefore critical to recognize that the district projects deficit spending; is experiencing declining enrollment; and needs to implement significant projected reductions in order to maintain minimum reserve levels. We understand the board will be carefully monitoring the budget in the current and future fiscal years and will make reductions as necessary to ensure the ongoing fiscal solvency of the district.

We appreciate the efforts of the board and district administration as they strive to develop and maintain balanced budgets. We look forward our continued partnership as we navigate the transition and implementation of the new funding model. Please do not hesitate to contact our office if we can be of assistance and support.

Sincerely,

Jeremy Meyers Superintendent

It is recommended that the board of trustees consider taking

action to approve \$2500 to support the FoodCorps at the

them healthy food from local farms.

EDUCATION IMPLICATIONS:

Students will receive explicit, hands-on instruction about the

science of plant growth, learn cooperative strategies working in

the garden, and enjoy consuming the vegetables they grow

themselves.

FROM:

Dr. Robert Williams, Superintendent

Roslynne Manansala-Smith, Chief Fiscal Officer

RECOMMENDATION:

It is recommended that the Board of Trustees adopt Board

Resolution #2014-20, Adopting and Certifying the "Gann" Limit

for 2013-14 and 2014-15 fiscal years.

BACKGROUND:

The Gann Limit (Proposition 4 by Paul Gann) was passed by the voters to place a limit on the amount of revenue that the State of California and local governments, including school districts, can increase each year, and was first calculated in 1980-81. Revenues that count toward the District's limit include local taxes and revenue limit income. Federal aid and local non-tax revenues, such as lottery, gifts, and fees, do not count toward the Gann

Limit.

Attached is a copy of the Resolution for Adopting and Certifying the "Gann" Limit. These calculations are required by Education Code 42132 to be adopted by the Board of Trustees and then submitted to the California Department of Education to document

that the District is within the required limit.

WHEREAS, the provisions of that Article establish maximum appropriation limitations, commonly called "Gann Limits," for public agencies, including school districts; and,

WHEREAS, the District must establish a revised Gann limit for the 2013-14 fiscal year and a projected Gann Limit for the 2014-15 fiscal year in accordance with the provisions of Article XIII-B and applicable statutory law;
